An insulated aluminium profile system with the Euro hardware groove as well as the PVC hardware groove in window sash profiles, designed for the construction of very high thermal performance windows.

- » high thermal performance due to the multi-cavity 42 mm thermal break and bi-component central gasket
- » large-dimension constructions possible
- » wide range of available hardware
- » window sashes flush with the frame on the outside
- » profile bending available
- » wide variety of corner joint solutions
- » different thermal insulation variants with different insulation inserts: PE78N, PE78N+, PE78NHI+
- » wide variety of possible constructions: turn-tilt, outward opening, concealed sash etc.
